Dear Mr. Saunders:

Re: Reclamation Bond Form, Quarry Antone, M/045/021, Tooele County, Utah

As per our telephone conversation of July 2, 1987, I have enclosed the reclamation bond for Quarry Antone (received June 23, 1987). As I indicated, two minor concerns must be addressed before the bond can be presented to the Board of Oil, Gas and Mining for final approval.

1. The acreage listed in the second paragraph of page one should be changed from 2.67 to 13.3 acres. The 13.3 acre figure represents the maximum disturbed area covered by the permit and is the acreage on which the bond calculations were based.
2. In reference to the last sentence of the same paragraph, please provide Attachment "A", containing a legal description of the proposed disturbed area.

Thank you for your cooperation in completing this permitting matter.

Sincerely,

David M. Wham
Reclamation Hydrologist
